Dear Mr Coetzer

PRIVATE PRACTICE FOR RADIOGRAPHERS

It is with concern that we note that to date the Society of Radiographers of South Africa has not received any correspondence, despite numerous requests dating back from 1998, regarding the motivations submitted for private practice for radiographers in nuclear medicine, radiotherapy and ultrasound.

Your response would be appreciated in terms of progress of the said submitted motivations.

Yours sincerely

Fozy Peer

National President: Society of Radiographers of SA
